PRICING EDITION 2021

CELEBRATING 100 YEARS OF AMERICAN MADE.

In 1921, we decided to make chairs in an uncompromising manner. That spirit is alive and well today.

We see every chair from start to finish—beginning with raw lumber, graded, stacked, and dried to absolute perfection. Then, we build, by hand, for restaurants, pubs, schools, libraries, resorts, and senior living communities; the places we work hard, have fun, and call home.

Our history is defined by making chairs people love—and at Jasper Chair, history repeats itself every day.

AMERICAN. ALWAYS.

Jasper Chair was established in 1921 in the heart of the Midwest in Jasper, Indiana and still maintains the same way of doing business: making quality furniture that can be used for a lifetime. We employ skillfully trained craftsmen and use only the finest raw materials in our manufacturing processes. We operate in a 275,000 square foot facility, under one roof, in our original location.

At the very beginning of a chair, we start with the finest of raw materials. At Jasper Chair, it's important we intimately know where our wood comes from. We purchase over two million board feet each year of the finest northern grown red oak and hard maple lumber harvested right here in the United States. We source from responsible foresters located in our backyard to ensure quality and availability. The lumber is tenaciously graded, sorted and stacked to be properly dried in one of three air-dry facilities on our grounds. This, we believe, is the key to providing furniture that lasts a lifetime. Some lumber may be required to air-dry for as long as a year. Many manufacturers bypass this integral process relying on faster methods or purchasing dried lumber. Here at Jasper Chair, we pledge to not use any inferior components in our furniture, starting with the rawest of our raw materials.

A large portion of our chair designs utilize steam bent solid wood. Steam bending is a lost art in which solid lumber is saturated with steam until the wood fibers are pliable for bending. A labor intensive process many manufacturers have traded for higher profits, steam bending offers no substitute. It is the only process that truly allows chair components to retain their shape, providing tremendous strength and long lasting performance.

Only after lumber has been deemed of excellent quality through imaging techniques, our craftsmen begin dimensioning, boring, doweling, and sanding the lumber into chair components. Our machine department relies on the finest machinery built from all over the world, ensuring our product is produced quickly and accurately and of the highest possible quality.

Jasper Chair runs constant quality checks. Dimension parts are hand selected for color to ensure continuity. Frame assembly is controlled to secure proper fit and form. All models are built from individually fitted components, we purchase no frames. In finishing, each chair incurs numerous staining and sanding processes for smoothness, followed by multiple layers of catalyzed varnish for a lifetime of beauty. Each chair passes through several temperature controlled ovens to cure the finish for ultimate durability. Finally, the chair is quality inspected one last time to ensure consistency of the order and all quality standards are met.

Then it arrives to you. And as always, the Jasper Chair product will be the silent, but sure, foundation of your business providing a lifetime of performance, comfort and solid beauty.

STANDARD FINISH
Our standard wood finishes are represented. These printed samples closely represent our standard colors. Please contact Customer Service for actual wood finish samples.

CUSTOM FINISHES
We will make every effort to accurately match your custom finish sample. Please contact Customer Service for a custom finish match as there may be additional manufacturing charges to be added to the standard development fee of $100 net per match. Due to limitations of some wood species, we reserve the right to decline requests. Wood owes its inherent beauty to variations in color, graining, and texture in its natural state. In our finishing process, we attempt to accent this beauty rather than subdue it. Consequently, the chairs you receive may not be a perfect color match to a sample. Similarly, there may be minor variations in color from one chair to the next even though they are finished at the same time.

HIGH PRESSURE LAMINATES (HPL'S)
Jasper Chair's table collections feature HPL top options. Reference the swatches for a complementary HPL match. For critical or specific color representation, contact Customer Service for an actual HPL sample.

FABRIC PROGRAM

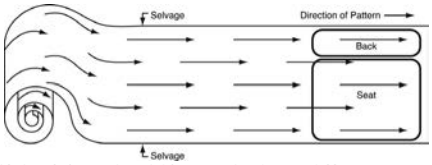
Jasper Chair's Fabric Program offers a selection of fabrics in a wide array of patterns and colors to accommodate a variety of applications. From durable fabrics to withstand the rigors of schools and universities, to easy-to-clean fabrics for restaurant and hospitality use, to protective upholsteries suitable for healthcare, Jasper Chair will have upholstery to fit the need.

A variety of fabrics are shown on Jasper Chair's swatch cards. Larger memo samples are available by contacting the fabric manufacturer direct.

All product includes the cost of applied fabric using Jasper Chair's Fabric Program and grade structure. These fabrics are classified or priced in grades ranging from grade 200 (lowest) to grade 700 (highest). If two graded fabrics are to be applied to the same frame, pricing will be based on the higher of the two grades.

Published yardage is based on a solid 54" wide fabric. In some cases, the pattern or repeat will require additional yardage. Please contact Customer Service to help estimate yardage requirements, toll free: 866-891-8289.

Unless the customer indicates, all fabrics will be customarily applied in a railroad manner (or off the roll in a horizontal fashion) as shown.



If the fabric should be applied in a different manner or up the roll, please indicate on your purchase order. Please be aware that additional costs and additional yardage may arise from applying the fabric other than the customary direction.

Cut yardage is available for purchase. Should a customer require to purchase cut yardage, refer to the following table for pricing.

Grade 200, $77 per yard list
Grade 300, $113 per yard list
Grade 400, $147 per yard list
Grade 500, $186 per yard list
Grade 600, $225 per yard list
Grade 700, $266 per yard list

Jasper Chair partners with multiple upholstery vendors to offer graded-in fabrics for ordering ease. These are listed on the following pages. For more information and to order memo samples please contact vendors direct.

FIRE RETARDANCY
All Jasper Chair products are manufactured to comply with California TB 117 as a minimum standard. Compliance with more stringent codes requires special manufacturing considerations and possible up-charges.

For California TB 133 we use either barrier material between the fire retardant fabric and foam cushioning or a fire retardant fabric and foam in order to comply with California TB 133. Some product designs and fabrics cannot be combined to comply with California TB 133. Because of this, we reserve the right to reject any request for a fabric, including C.O.M., or product style that may compromise the integrity or safety of a product specified to comply with California TB 133. Please contact Customer Service for pricing and availability to comply with California TB 133.

STANDARD LEATHER

The leathers shown are thicker material selected for woven backrests; they are not ideal for standard upholstery application.

CUSTOMER'S OWN MATERIAL

Jasper Chair accommodates Customer's Own Material (COM) requests. COM orders must meet quantity requirements for adequate yardage as well as performance requirements to avoid wear and defects and satisfy aesthetic expectations on Jasper Chair products.
When selecting a fabric please be aware that some fabrics may not tailor well due to their characteristics. Jasper Chair cannot assume responsibility for the tailoring quality of some fabrics or for the receipt of defective materials.

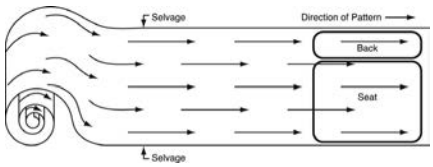
When specifying COM, refer to Grade 200/COM pricing grades.

All COM orders must be accompanied by Jasper Chair's COM form to expedite the order, indicating fabric details and application instruction. All COM orders should be shipped to:

Jasper Chair
Receiving Department
534 East 8th Street
Jasper, Indiana 47547

Yardage published is based on a solid 54" wide fabric. In some cases, the COM pattern or textile width will require additional yardage. Please contact our Customer Service to help estimate yardage requirements, toll free: 866-891-8289.

Unless otherwise noted, all fabrics will be applied in a railroad manner (or off the roll in a horizontal fashion) as shown. It is very important for the customer to indicate upholstery preferences on the COM form to achieve the desired look when submitting a COM order. Please be aware that additional costs and additional yardage may arise from applying the fabric other than the customary direction.



Listed yardage requirements are based on 54" wide fabric. For fabrics less than 54" wide, or those requiring matched upholstering such as large patterns, prints, stripes, etc., additional yardage will be required based on style and quantity ordered. The below chart is a general guide to estimating yardage:

Fabric width	Plain	Under 7" repeat	7"-13" repeat	14"-21" repeat	22"-27" repeat	27"+ repeat
54"	0	15%	20%	25%	30%	40%
51"-53"	10%	25%	30%	35%	40%	50%
48"-50"	15%	30%	35%	40%	45%	55%
45"-47"	30%	45%	50%	55%	60%	70%
36"-44"	50%	65%	70%	75%	80%	90%

COM FORM

All COM orders must be accompanied by Jasper Chair's COM form to expedite the order, indicating fabric details and application instruction. All COM orders ship to:

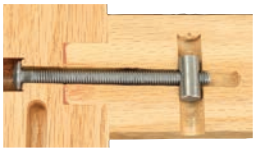
A BETTER CHAIR

Building a better chair starts with using only the finest domestic raw materials, employing skillfully trained craftsman, and close monitoring of the production process. In addition, we integrate consistent features in our products so they uniquely last a lifetime.

CONSTRUCTION
Joinery is a combination of dowel or mortise and tenon with additional hardened steel fasteners to provide the highest quality frame.

Interlocking corner block and rail joint lends superior strength at critical joints and provides optimum support for the seat suspension. This provides more durability and comfort for the life of the chair.
All chair frames are reinforced with screws, not just glue, for rigidity and durability. Solid wood corner blocks provide support at all critical joints.

Depending on frame style, certain models feature our bolt & slug metal fastener for extra seat strength and durability. Seats are attached to frame with the bolt & slug fastener through front, back and side rails for structural joint construction that lasts a lifetime. We never attach through the corner block which weakens the joint structure and reduces the life and performance of a chair.
Other frame styles use our hardened steel confirmat metal fastener for extra seat strength and durability. Seats are attached to frame with the confirmat fastener through back and side rails for structural joint construction that lasts a lifetime. We never attach through the corner block which weakens the joint structure and reduces the life and performance of a chair.



Select upholstered styles utilize a flex-o-lator spring suspension for extra support and comfort, and reduces wear on the cushion and fabric for long term performance.

There are no shortcuts involved in building a chair to last a lifetime. Therefore, we build every chair from scratch, under our roof. From drying raw lumber to final cartoning, we self-perform all stages of building our furniture, so we can fully stand behind what we sell.

MANUFACTURING
Each year we purchase over two billion board feet of the finest Northern grown red oak and hard maple harvested within the United States. We work with responsible foresters located within the Midwest to ensure quality and availability.

This is where we standout from the rest. Our lumber is stored up to a year, dried (yes, right here ourselves), graded, and sorted accordingly. Unlike many manufacturers that bypass this vital process for faster methods or purchase dried lumber. Starting with rawest of materials is how we've always done it and we haven't changed a bit.

Few contract seating companies practice the craft of steam bending, but we have mastered the process to bring more authentic beauty and structural integrity for chairs that last a lifetime. Steam bending allows the grain to follow the curve eliminating short grain inferiority inherent in bandsaw construction. To begin the steam bending process, we saturate chair components to precise pliability, steam bend into various shapes, and dry to a stable moisture content for years of solid comfort with high traffic use.

Relying on the finest machinery from around the world, we are able to build our product quickly, accurately, and to the highest possible quality.

Constant quality checks are made throughout the assembly process. Frame assembly is controlled to secure proper fit and form.

Before receiving the final sanding, every chair is inspected to ensure the proper amount of glue was used and each frame is square and fastened properly. During the sanding process we flush out joints and create smoothness in preparation for finish.

Each chair is put through numerous straining and sanding processes for smoothness. Multiple layers of catalyzed varnish are applied. Chairs then pass through several temperature controlled ovens to cure the finish for ultimate durability.

Material is precisely cut, measured, and upholstered. A final inspection to ensure consistency of the order and all quality standards are met. Then, product is securely packaged and prepared for shipping.

The old way never gets old.

NEW ACCOUNTS
To expedite the process, please fill out the new account form in its entirety. The form is available from your local representative, Customer Service or online at jasperchair.com/resources/quotes-and-ordering.

ORDERING EXAMPLES

Model numbers represent basic style, size and type of chair. The numbers within a model strand indicate most similar product, families. Additional designators are built into the model number and indicate functional and decorative options. These are outlined in above key.

To order chairs and stools, specify:
1. Core model number, indicating seat height when needed
2. Wood specie
3. Wood finish color
4. Fabric selection, including vendor, pattern and color
5. Options, such as glides, casters, nail trim, channels, etc

105US | Oak | Cordovan | Mayer | Saucy | Blue | NT | CA
(1) (2) (3) (4) (4) (4) (5) (5)

To order lounge, specify:
1. Core model number, indicating seat span when needed
2. Arm style
3. Wood specie
4. Wood finish color
5. Fabric selection, including vendor, pattern and color
6. Options, such as ganging, etc

5710-2 | WS | Oak | Cordovan | Mayer | Saucy | Blue
(1) (2) (3) (4) (5) (5) (5)

To order tables, specify:
1. Core model number, indicating size and shape
2. Edge selection and profile
3. Leg or base style
4. Wood specie
5. Wood finish color
6. Laminate selection, include vendor, pattern, and color

L42RP29 | D | S | Oak | Cordovan | Wilsonart | Graphite | Nebula
(1) (2) (3) (4) (5) (6) (6) (6)

TERMS

PRICING
All prices shown are list and are F.O.B. factory. Effective price lists supersede any and all prices previously quoted and are subject to change. Jasper Chair will only honor pricing from an effective price list or a valid written quote.

FREIGHT ESTIMATES
Freight estimates are approximated costs and are subject to change within 30 days of a written quote. Please contact our Customer Service for confirmed or revised pricing.

ORDERS
All orders must clearly state the quantity, model number, wood species, finish selection, fabric selection if applicable, expected delivery date, and shipping address to be entered. It is the responsibility of the company placing the order to supply Jasper Chair with all the necessary information. We accept no liability for an incomplete order. Incomplete orders cannot be entered and cannot be scheduled into production until all the necessary information is received. If you place an order with Jasper Chair and do not receive an order acknowledgment within five business days, please contact the factory.

ACKNOWLEDGMENTS
Order acknowledgments are sent the same day the order is entered. Please review the acknowledgment and contact the factory within 48 hours of receipt if corrections are necessary. Later changes will be subject to factory approval and possible charges depending on the status of the order. Orders being processed in two weeks or less will not be allowed to change after the order is entered.

ORDER AMENDMENTS
Amendments to an entered order must be done in writing. There may be charges assessed depending on the status of the order.

CANCELLATIONS
Cancellation of an order must be done in writing. There may be charges assessed depending on the status of the order. Orders specifying a custom finish may not be canceled once the finish process is underway.

SHIPMENTS
Jasper Chair will select a quality carrier with the best possible freight rate unless a carrier has been specified in writing on the order. If a dealer selects the carrier, Jasper Chair cannot be held liable for any damages that occur to said shipment.

FREIGHT CLAIMS
All shipments are delivered to the carrier in good condition and our liability ceases thereafter. Please inspect all shipments upon receipt and note any shortages or damages on the bill of lading. If the shipment arrives damaged or short, and Jasper Chair has chosen the carrier, you must notify the factory within 7 days of receipt of the shipment. However, if the carrier is one of your own choosing, you should file a claim immediately with the carrier. Failure to file a claim within 7 days after receipt of the shipment constitutes acceptance and a waiver of any possible claim.

RETURNS & REPAIRS
All returns must be factory authorized and must be shipped freight prepaid. Any shipment returned unauthorized or freight collect will be refused. Upon receipt of the returned product, Jasper Chair will determine whether the product is defective. Liability for defective products is limited to repair or replacement. There will be no credit issued for returned product.

REPLACEMENT PARTS
Please contact your factory service person for help and pricing concerning replacement parts.

WARRANTY
Each piece of furniture manufactured by Jasper Chair is warranted to the original purchaser to be free from defects in material or those resulting from workmanship for a period of five years. All swivel controls, glides, casters, and fabrics are warranted by their respective manufacturers based on their conditions. This warranty does not apply to damage resulting from misuse or accident. Warranty claims must be in writing and Jasper Chair will determine whether to repair or replace the defective product.

CARE & MAINTENANCE

Periodic inspections should be made to determine if the wood surface is soiled. If so, clean using a mild household cleaner and damp cloth. The wood finish is resistant to body oils and perspiration, but should be cleaned when a soiled condition is noticeable.

Should ink, lead, or paint soil the wood finish, immediately refer to the manufacturer's recommendations for cleaning from a varnish or a painted surface.

If the surface becomes scratched, use a touch-up material compatible with varnish. Do not use any lacquer type materials, as this will cause the finish to lift or blister.

When the upholstery fabric becomes soiled, use a name brand fabric cleaner or shampoo as per the manufacturer's instructions. Should the fabric be soiled with ink, lead, or paint, immediately refer to the manufacturer's recommendations to remove.

Chair frame maintenance requires periodic inspections of the joints, especially the back post to side rail joint. Check to be sure all screws are tight and if any screws have become loosened; tighten. Should any part of the chair frame develop a crack or break, immediately remove the chair from use and contact a qualified furniture repair person or contact the factory for assistance.

Wood is greatly affected by moisture or more importantly the lack of moisture. The best relative humidity ranges between 35 to 45 percent at 70 to 80 degrees Fahrenheit. If your building's relative humidity level is below 35 percent, a system that adds moisture into the air needs to be employed. The worst time of year for moisture related troubles is during the winter as heating systems extract moisture from the air. Chairs with solid wood seats are very sensitive to drops in humidity. The solid wood chair seat will be the first part of the chair to show signs of lack of moisture and develop small end grain checks or splits. Should this occur, please check to see if the relative humidity level in your building is at the proper level.

Should any unusual problem occur, contact the factory or a factory representative for assistance.

cheers!

DESIGN CENTER

SOLUTIONS

We strive to make the process of selecting and purchasing furniture fun and easy. Find out more with our start-to-finish guide.

COLLABORATIVE PLANNING
We are ready to listen, so let's start with the basics - your goal and concepts, budgetary parameters, and a time line. We're probably just as excited as you to see your brand come to life.

PROJECT MANAGEMENT
A project manager will be here to ease the flow of communication, time objectives, and even follow up after the product installs. Or, years later, a replacement part is needed or you're looking to expand, we'll have project details and be ready to go.

DESIGN & ENGINEERING
Now for selecting product. We have many standard options and many more custom solutions. Whether it's an inspiration concept, sketch, or a drawing, we can accommodate. Our team of experts have ideas on construction techniques and value engineering.

SAMPLES
We realize details matter. We will provide drawing files with full specifications or even a rendered visual. And, when time allows, let's mock up a prototype and be certain all those details are precise.

STOCKING
We're happy to accommodate inventory and management of, whether its fully boxed and ready-to-ship or maintaining inventory based upon forecasting efforts. We realize the importance of being on time and have adequate warehouse space to provide this service at no added cost to you. We'd rather have product under our roof than multiple handling or some warehouse unaccounted.

ONGOING
We are committed to your goals and our partnership. If you have a need or an idea, we are ready to hear it - replacement seats or cushions, touch-up, charcuterie boards, and special product packaging - and everything in between. We want to ensure your satisfaction throughout the entire process, including years after.

Jasper Chair provides a variety of solutions for many applications. Following is a guide to what we see trending in these environments.

RESTAURANT, HOTELS & RESORTS
Dining has evolved into an experiential event and interiors are critical to a restaurants or hotels success. Jasper Chair services many world wide food and stay facilities and have become a go-to source due to our customization and superior quality.
Popular selections *Allis, Brooks, Dakota, Hana, Hays, Joliet, Neenah, Niles, Samara, Walton*

CAFE, COFFEE HOUSE, & WINERY/BREWERY
Smaller scale seats, vintage appeal, or finish selections, Jasper Chair provides options to meet the distinct look with a variety of choices.
Popular selections *Addi, Afton, Clay, Diego, Lora, Macy, Marshal, Porter*

HOUSING COMPLEX
Get a look for right at home with our contract grade product and competitive pricing, our chairs fit a variety of spaces while meeting budgets.
Popular selections *Diego, Hana, Koko, Lora, Macy, Samara*

CRUISE SHIPS
Jasper Chair offers selections made specifically for cruise ships. With an eye on sizes, arm and armless, and designs that fit contemporary and traditional themes.
Popular selections *Neenah, Niles, Samara, Sidney*

COUNTRY CLUBS, ARENAS, AND STADIUM SUITES
Casters, club chairs, and customization make our offering right for most any recreational area. Add a logo or team color for that extra brand element.
Popular selections *Becket, Brooks, Diego, Hays, Koko, Mckinley, Samara*

SENIOR LIVING & HEALTHCARE
A unique responsibility comes with furnishing senior living and healthcare facilities. Above all else, furniture must be attractive, comfortable, and supportive. Every product is crafted and upholstered to provide these elements for a long day's wait.
Popular selections *Chelsey, Dolton, Lenexa, Niles, Novi, Tinley*

LIBRARY
Whether a public library or law library, our full range of coordinating collections have distinction and functionality for these spaces.
Popular selections *Asher, Becket, Clive, Edina, Ellanor, Lydia*

OFFICE
Let our product work for you. Looks for start ups to refined details, create an atmosphere for millennial to boomers.
Popular selections *Diego, Hana, Koko, Milan, Neenah, Samara*

EDUCATION & STUDENT HOUSING
A top choice with distinction and durability for the rigorous demands of students. Jasper Chair provides solutions to many higher education campuses and k-12 institutions.
Popular selections *Diego, Macy, Marshal, Taylor, Tinley, Walton*

RELIGIOUS
Custom kneelers, the warmth of wood, or linking, allow your place of worship unity and the functionality it needs.
Popular selections *Diego, Edina, Lyons, Tiffin, Tinley*

RETAIL
Let's create product that supports your brand. A first look or comfort for waiting, our chairs are sure to impress your audiences.
Popular selections *Joliet, Macy, Samara*

SPECIALTY FEATURES
Stacking *Asher, Chelsey, Diego, Novi, Tinley*
Bariatric *Novi*
4-leg Casters Mckinley
Mixed Material *Diego, Brooks*
Juvenile *Clive, Edina, Marshal, Taylor, Tiffin, Walton*
Linking *Clive, Taylor, Tiffin, Tinley*

CUSTOM PRODUCT

Jasper Chair is your most reliable source for authentic custom manufacturing. From a slight modification such as made-to-measure dimensions to building a completely original concept, Jasper Chair, in partnership with you, will masterly craft the exact product.

Leg design, stretchers and support rails, edge treatment, seat style, upholstery techniques, functional features such as stacking or kneelers, materials are just a few ways to make your product your own.

QUANTITIES
Due to the nature of creating a unique piece, minimum order quantities apply. Please contact Customer Service for specific details and parameters. A general guide, is fifty chair minimum; however, depending on previous designs and programming, this can vary, or a one time fee can be applied.

LEAD TIME
We will make every effort to accommodate your lead time schedule. Due to the extra time involved with engineering efforts, an increase of two weeks can be expected to create a unique furniture piece.

REQUEST
To minimize the time frame, please provide at the onset of a customer project - project reference, quantities, ship to zip, detailed product information, contact name and information.

TAILOR MADE

Because every project is unique, we allow a variety of ways to personalize your project. Here's a look at our most popular options. Not all options are available on all product with standard pricing. Upcharges may apply.

PERSONALIZED LASER ENGRAVING
Provide art file or inspiration, specification of color, size and location; available on many seats and backrests.

MULTI-FINISH
Select product can be specified in choice of two finish colors.

DUAL UPHOLSTERY
Specify many models in a choice of two upholstery selections; outside of backrest or between seat and backrest are most common.

NAIL TRIM
Standard trim is in brass at 1/2" spacing; antique, satin, and oxford are also available; spacing can be without gaps or at 1" or more increments.

FINISH COLORS
By providing color specification (paint or pms values), we can match nearly any variety.

FINISH APPLICATION
Rubbed color, distressing or other unique application, provide your inspiration and we can execute.

DECORATIVE CUTOUTS
Offer on a variety of standard geometric cutouts and options; if you have another idea, provide an art file or instructions.

DECORATIVE STITCHING
Want a little extra detail added to upholstered product, add stitching. Our standard options are line or grid, but we do a variety of other techniques.

MOTION SEATS *
Motion seats are designed in our Brooks collection and many additional barstools; with some modifications, many others can utilize this feature.

JURY BASE
Available as a standard option with our Walden collection.

ARMPADS
Armpads can be added to a variety of models; we route the shape into the arm to fit the pads securely. Novi and Mckinely offer as a standard option.

LINKING
A variety of lounge, chair, and sled base models offer linking.

* Motion seats, while providing a unique feature, may require additional attention. Due to movement, the chair or stool's backrest can bump along table and counter tops, causing damage. A solution for this instance would be to include a footrail along the table or bar to keep the backrest apart from the surface.

HANDHOLDS
Porter offers an integrated and rounded handhold option; many series include cutout designs.

CASTERS
Many chairs include the option to add front leg casters; Mckinley allows for four leg casters.

BUTTONS & TUFTING
Want a little extra detail added to upholstered product, add buttons or a tufting detail.

BOOKSHELF
Looking for added functionality of a bookshelf? Look no more. Several series utilize a bookshelf stretcher system. Or, apply to the backrests of a variety of chairs.

GLIDES
Rubber cushion chrome glides are standard; we recommend and offer a .875" black or white nylon for wood and tile floor application.

CHANNELS & RINGS
Barstools are standard with brass channels and rings; stainless and other color options are available.

SEAT HEIGHT & DIMENSIONS
Many barstools can be modified to counter height; other product allows for height adjustment as well - cafe size, juvenile, lounge or other.

PERSONALIZED STAMPING
A process to express your brand message; provide an art file or inspiration, color and size specifications.

REPLACEMENT SEATS & PARTS
Due to high traffic environments and the longevity of our product, replace seats or other parts may be needed; many of our products allow this feature with ease.

PIPING
A welt cord or piping creates defined form and added protection to furniture. Specify in coordinating or dual upholstery selection.

THE EARTH'S FRIEND FOR A HUNDRED YEARS.

Jasper Chair's environmentally conscious approach is a necessary part of how we do business. We have responsibly handled and managed wood raw materials for ninety-six years and counting, so a great amount of present and future accountability for our natural resources has guided our environmental ethic for decades. We make it our absolute commitment to harvest wood in a way that preserves and replenishes our forests. Our products are designed to last a lifetime. Close attention is paid to the way our furniture is made and to the ways it can be renewed, reused, and recycled.

Jasper Chair makes its furniture with the intent it will be heirloom furniture passed from generation to generation. Continually investing in the most modern technology and equipment ensures maximum lumber yield and improves manufacturing efficiency. We collect all non usable wood and use it for fuel, creating steam for manufacturing processes and heat in the winter, reducing the release of damaging fossil fuels in our facilities and into the air. We promote company wide efforts and employ environmental stewards, delivering protective methods to benefit future generations with our conscientious, sound manufacturing practices.
