A Standard of Excellence

Jasper Chair knows interiors are critical to your facilities. Durability is required for rigorous use in high traffic areas. Comfort is necessary for long hours of focused work. We tend to every detail to ensure top performance and the finest in style and comfort for your students and visitors.

Built to Last a Lifetime

At Jasper Chair, we promise to build a chair to last a lifetime. Therefore, we build every chair, from-scratch, under our roof and have done so since 1921. We do not import frames; we steam bend and build our own. We do not buy dried lumber; we dry our own. We do not, and will not, use pre-finished frames; instead, we fine tune our finish lines to always provide a consistent, environmentally friendly finish. It is, and has always been, our goal to yield quality product that is both durable and distinctive thus satisfying each and every customer. We build chairs the only way we know how, the right way.
