JASPER CHAIR UNVEILS LODI

Warmed by the valley sun and cooled by the Delta breeze. Rich in minerals providing abundant, unique, and consistent quality. A surprise and delight where roots run deep; Lodi, California.

Vibrancy of collaborative efforts brought to life this high impact collection at a competitive price. Curves with fluid movement in the bent ply shell marry with expert tailoring and soft cushions. Round, tapered legs with a metal foot ring complete the alluring design.

Lodi is available as a chair and stool. The pair can be specified in as a fully enclosed backrest or a mirrored curvilinear cutout along the base. The barstool features two additional base styles with motion – wood and black metal with chrome furrows.

The collection is standard in maple wood and a full range of finish options. Specify Lodi with optional piping or dual upholstery to fit your interior essence.

The relaxed, yet luxury appeal, suits Lodi for social environments, and perhaps, even a source of inspiration.

Livable, lovable, Lodi.

--

AN AUTHENTIC MESSAGE

In 1921, we decided to make chairs in an uncompromising manner. That spirit is alive and well today.

We see every chair from start to finish – beginning with raw lumber, graded, stacked, and dried to absolute perfection. Then, we build, by hand, for restaurants, pubs, schools, law firms, and senior living communities; the places we work hard, have fun, and call home.

At Jasper Chair, we bend the rules, preserve lost arts, and pursue a level of quality that's hard to come by – always for our customers, always with American pride.

Our history is defined by making chairs people love – and at Jasper Chair, history repeats itself every day.
