SOLUTIONS

We strive to make the process of selecting and purchasing furniture fun and easy. Find out more with our start-to-finish guide.

COLLABORATIVE PLANNING

We are ready to listen, so let's start with the basics - your goal and concepts, budgetary parameters, and a time line. We're probably just as excited as you to see your brand come to life.

PROJECT MANAGEMENT

A project manager will be here to ease the flow of communication, time objectives, and even follow up after the product installs. Or, years later, a replacement part is needed or you're looking to expand, we'll have project details and be ready to go.

DESIGN & ENGINEERING

Now for selecting product. We have many standard options and many more custom solutions. Whether it's an inspiration concept, sketch, or a drawing, we can accommodate. Our team of experts have ideas on construction techniques and value engineering.

SAMPLES

We realize details matter. We will provide drawing files with full specifications or even a rendered visual. And, when time allows, let's mock up a prototype and be certain all those details are precise.

STOCKING

We're happy to accommodate inventory and management of, whether its fully boxed and ready-to-ship or maintaining inventory based upon forecasting efforts. We realize the importance of being on time and have adequate warehouse space to provide this service at no added cost to you. We'd rather have product under our roof than multiple handling or some warehouse unaccounted.

ONGOING

We are committed to your goals and our partnership. If you have a need or an idea, we are ready to hear it - replacement seats or cushions, touch-up, charcuterie boards, and special product packaging - and everything in between. We want to ensure your satisfaction throughout the entire process, including years after.

CUSTOM PRODUCT

Jasper Chair is your most reliable source for authentic custom manufacturing. From a slight modification such as made-to-measure dimensions to building a completely original concept, Jasper Chair, in partnership with you, will masterly craft the exact product.

Leg design, stretchers and support rails, edge treatment, seat style, upholstery techniques, functional features such as stacking or kneelers, materials are just a few ways to make your product your own.

QUANTITIES

Due to the nature of creating a unique piece, minimum order quantities apply. Please contact Customer Service for specific details and parameters. A general guide, is fifty chair minimum; however,

depending on previous designs and programming, this can vary, or a one time fee can be applied.

LEAD TIME

We will make every effort to accommodate your lead time schedule. Due to the extra time involved with engineering efforts, an increase of two weeks can be expected to create a unique furniture piece.

REQUEST

To minimize the time frame, please provide at the onset of a customer project - project reference, quantities, ship to zip, detailed product information, contact name and information.

TAILOR MADE

Because every project is unique, we allow a variety of ways to personalize your project. Here's a look at our most popular options. Not all options are available on all product with standard pricing. Upcharges may apply.

PERSONALIZED LASER ENGRAVING

Provide art file or inspiration, specification of color, size and location; available on many seats and backrests.

MULTI-FINISH

Select product can be specified in choice of two finish colors.

DUAL UPHOLSTERY

Specify many models in a choice of two upholstery selections; outside of backrest or between seat and backrest are most common.

NAIL TRIM

Standard trim is in brass at 1/2" spacing; antique, satin, and oxford are also available; spacing can be without gaps or at 1" or more increments.

FINISH COLORS

By providing color specification (paint or pms values), we can match nearly any variety.

FINISH APPLICATION

Rubbed color, distressing or other unique application, provide your inspiration and we can execute.

DECORATIVE CUTOUTS

Offer on a variety of standard geometric cutouts and options; if you have another idea, provide an art file or instructions.

DECORATIVE STITCHING

Want a little extra detail added to upholstered product, add stitching. Our standard options are line or grid, but we do a variety of other techniques.

MOTION SEATS *

Motion seats are designed in our Brooks collection and many additional barstools; with some modifications, many others can utilize this feature.

JURY BASE

Available as a standard option with our Walden collection.

ARMPADS

Armpads can be added to a variety of models; we route the shape into the arm to fit the pads securely. Novi and Mckinely offer as a standard option.

LINKING

A variety of lounge, chair, and sled base models offer linking.

* Motion seats, while providing a unique feature, may require additional attention. Due to movement, the chair or stool's backrest can bump along table and counter tops, causing damage. A solution for this instance would be to include a footrail along the table or bar to keep the backrest apart from the surface.

HANDHOLDS

Porter offers an integrated and rounded handhold option; many series include cutout designs.

CASTERS

Many chairs include the option to add front leg casters; Mckinely allows for four leg casters.

BUTTONS & TUFTING

Want a little extra detail added to upholstered product, add buttons or a tufting detail.

BOOKSHELF

Looking for added functionality of a bookshelf? Look no more. Several series utilize a bookshelf stretcher system. Or, apply to the backrests of a variety of chairs.

GLIDES

Rubber cushion chrome glides are standard; we recommend and offer a .875" black or white nylon for wood and tile floor application.

CHANNELS & RINGS

Barstools are standard with brass channels and rings; stainless and other color options are available.

SEAT HEIGHT & DIMENSIONS

Many barstools can be modified to counter height; other product allows for height adjustment as well - cafe size, juvenile, lounge or other.

PERSONALIZED STAMPING

A process to express your brand message; provide an art file or inspiration, color and size specifications.

REPLACEMENT SEATS & PARTS

Due to high traffic environments and the longevity of our product, replace seats or other parts may be needed; many of our products allow this feature with ease.

PIPING

A welt cord or piping creates defined form and added protection to furniture. Specify in coordinating or dual upholstery selection.
