# HATTIE

The earliest bridge connecting the two diverse places. A remnant of the past, upgraded and renewed by the future.  
*Hattie Bridge, Marinette, WI & Menominee, MI*

The invention and reinvention of the classic Windsor style chair has emerged and reemerged. This time around, it's a perfect fit for those curated themes and a modern approach. Each piece meticulously built by expert craftsmen, yet providing its own identity through patterns created naturally in wood.
